

Chad Seaman, P.E.

Civil Engineer / Project Manager

Registration

Professional
Engineer:
Minnesota

Education

B.S.
Civil Engineering,
Michigan
Technological
University

Funding Experience

Municipal State Aid
County State Aid
Federal Aid

Summary

In his ten years as a professional engineer, Chad's attention to detail and commitment to the success of his projects has earned him the respect and trust of his clients. His experience in the design and construction of transportation projects includes preliminary and final design, public involvement, utility coordination, and construction management. As a project manager, he is responsible for the coordination and processing of major roadway reconstruction and transportation projects, handling each step of the project, from proposal preparation to bidding and construction administration. Chad manages contract negotiations and project tracking to ensure deliverables are completed on time and within budget. The success of several high profile transportation projects can be traced to Chad's adept leadership of design and construction teams.

“ **‘We’ve never dealt with anyone like him.’** ”

That’s the answer I got from a large county client when I asked how Chad was doing for them on a recent project. Like many other clients, they went on and on about Chad’s attention to detail and how they had never received the level of service he had provided for them.

It’s not surprising. Chad has established strong relationships and earned the respect and trust of everyone from clients to members of the communities we’ve worked in. In everything he does — personally and professionally — he goes above and beyond.

— **Tim Avidson, PE, Vice President, Stonebrooke Engineering**

Relevant Project Experience:

Preliminary Design Experience

Project Manager

- + CSAH 25 / Washington Avenue (McLeod County, \$4.5M)
- + West Beltline (CSAH 7) Design (Steele County, \$6.0M)

Chad Seaman, P.E. Continued

Civil Engineer / Project Manager

- + County Road 19 Trail Design (Hennepin County, \$3.0M)
- + 22nd Street Extension (City of Minneapolis)
- + CSAH 153 (Lowry Ave) Reconstruction Phase 2 (Hennepin County, \$7.5M)

Project Engineer

- + CSAH 153 (Lowry Ave) Reconstruction Phase 1 (Hennepin County, \$6.1M)
- + CSAH 44 (Silver Lake Road) Reconstruction (Ramsey County, \$3.5M)
- + CSAH 44 (160th Street) Reconstruction (Scott County)
- + CSAH 3 (Excelsior Blvd) and St. Louis/Milwaukee Street (Hennepin County)

Final Design Experience

Project Manager

- + TH 30 (Amboy to Mapleton)
- + CSAH 25 / Washington Avenue (McLeod County, \$4.5M)
- + West Beltline (CSAH 7) Design (Steele County, \$6.0M)
- + CSAH 153 (Lowry Ave) Reconstruction Phase 2 (Hennepin County, \$7.5M)
